

PRESENTATION SCHEDULE

9:00 am

Commercial Trade Show
Western Kansas Agricultural Research
Center – Hays Auditorium

**Rolls and Refreshments,
Compliments of
Suther Feeds, Inc.**

Program begins at 10:00 am

Welcome

Dr. Bob Gillen, Department Head, Western
Kansas Agricultural Research Centers

A Historical Look at Climate Variability in the Great Plains – Impacts on Agriculture

Jeffrey Basara is a faculty member of the
School of Meteorology at the University of
Oklahoma. Dr. Basara's research interests
are focused on the integration of our
understanding across weather, climate,
water, and ecosystems. His research
activities includes land-atmosphere
interactions, droughts, and flash floods.

Using Intensive Early Stocking in Cow/Calf Production Systems

Range Scientist Keith Harmony will
discuss preliminary research results of
how intensive early stocking can be
utilized in a cow/calf production system.
This allows more calves to be raised on the
same unit of land without significantly
increasing production costs.

NOON – LUNCH – AUDITORIUM

An offering of Smokin' Co. BBQ
smoked brisket and sides –
all compliments of
Golden Plains Trucking, Carrico
Implement and Big Creek
Veterinary Service

AUDITORIUM AFTERNOON SESSIONS

Pasture Land Values and Rental Rates

Agricultural Economist Mykel Taylor will
present an economic outlook of pasture
land values and rental rates for Kansas.

What's a Bud Box and How Do You Use It?

Southwest Area Extension Beef Cattle
Specialist Justin Waggoner will provide an
overview of Bud box operation, including
do's and don'ts for low-stress cattle
handling in your operation.

Split-Time Artificial Insemination Programs for Beef Cows

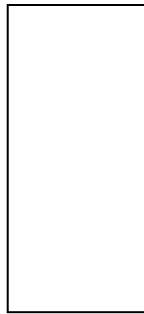

Beef Cattle Scientist John Jaeger will
discuss how utilizing split-time in an estrus
synchronization program can improve
conception rates.
